I am a hardworking, enthusiastic individual with excellent organisational and time management skills. I have good communicational and interpersonal skills. I work well under pressure and therefore I like being assigned a lot of tasks. I am also an IT leader for learning. Due to a 2-years course of DIDA, 1 Year of IT Level 2 and 2 years IT Level 3 and now my 2nd year of Software Engineering BSc (Hons), I have learned a lot about IT, as well as employers job requirements. I own customer service skills, and I can adapt myself to their needs and solving complaints.

BSc Hons Software Engineering, Kingston University 2013-Present
